

METAVVERSE

The New Reality

WHAT IS METaverse?

- ✓ Metaverse is a virtual-reality space in which users can interact with a computer-generated environment and others users.
- ✓ The internet will eventually evolve into the metaverse, which will come to represent the next major computing platform.
- ✓ Combination of augmented, virtual and mixed reality can be Metaverse.

TWO TYPES OF METAVERSE

I. BLOCKCHAIN BASED

One of them deals with building a Blockchain-based metaverse, using NFTs and Cryptocurrencies. Some of the examples are Decentraland and The Sandbox, which allow people to purchase virtual parcels of land and build their own environments.

2. SOCIAL WORLD

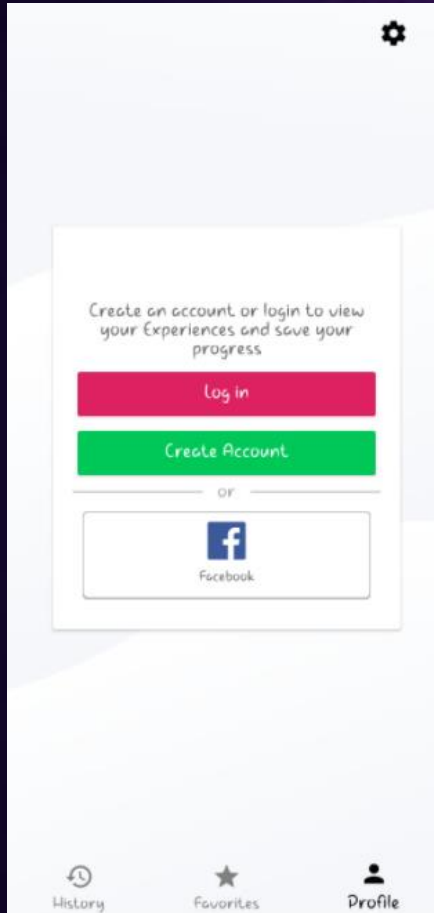

While the other one is a simple, virtual world where people can meet and greet each other. Facebook is working towards creating this version of Metaverse.

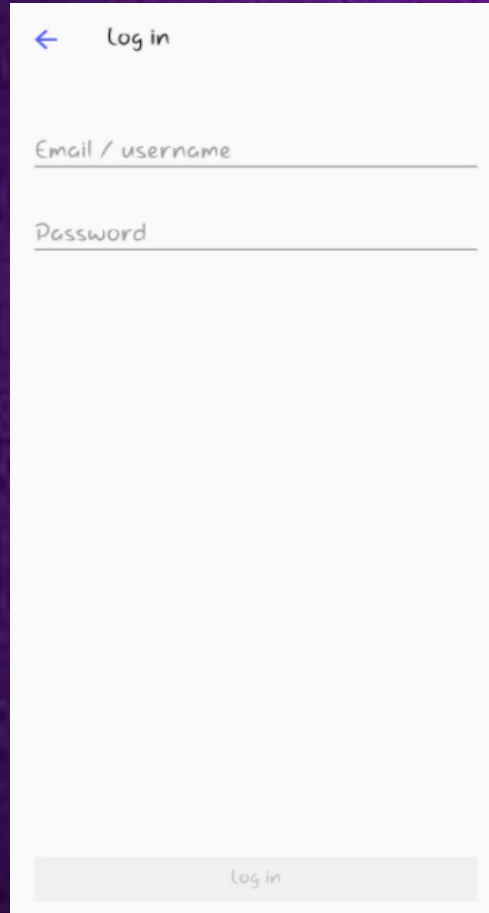

WHAT YOU CAN DO IN A METAVERSE?

- Make a virtual property
- Earn money by investing in NFTs, playing games that earn you money, etc.,
 - Advertise anything
- Create an environment customized to yourself
 - Own digital properties
 - Buy and sell unique assets
